PROFESSIONAL SUMMARY

Cum Laude Software Engineering graduate who both designs and builds. Designed production healthcare interfaces in Figma at Konvergenz Network Solutions (Oncology Module and redesign of Afya Yangu platform) and ships working products in React.js, JavaScript, Node.js and Firebase. Brings user-centered design, accessibility fundamentals and implementation-aware handoff to cross-functional teams building digital products for East African users.

TECHNICAL SKILLS

Product & UI/UX Design: Figma (wireframing, prototyping, auto-layout, variants, design systems), user research, usability testing, accessibility (contrast, tap targets), responsive design, brand & visual identity, empty-state design, developer handoff (Dev Mode, redlines)

Frontend Development: JavaScript, React.js, HTML5, CSS3, responsive and mobile-first interfaces, REST API integration, Android (Java)

Backend & Data: Node.js, Flask, Python, SQL/MySQL, MongoDB, Firebase (Authentication, Realtime Database, Storage)

Cloud & Tooling: Git/GitHub, Google Cloud Platform, Microsoft Azure, Bash, CI/CD workflows, system monitoring; also Java, C++

PROFESSIONAL EXPERIENCE

Konvergenz Network Solutions | *UI/UX Intern, Nairobi*

Jan. 2026 – Apr. 2026

- Led end-to-end design (research, wireframes, prototypes, usability testing, iteration) of an Oncology Module in Figma, working with clinical and engineering teams to deliver a production-ready interface.
- Contributed to the Afya Yangu digital health platform redesign, implementing brand colors and designing empty states that improved visual consistency and reduced user confusion across key flows.
- Built reusable components with Figma auto-layout and variants for scalable design systems; applied accessibility fundamentals (contrast, tap targets) to widen usability.
- Worked alongside the DevOps team (CI/CD, monitoring, cloud infrastructure) to design with implementation feasibility in mind.

EDUCATION

United States International University Africa (USIU-A) | *BSc. Software Engineering*

Sept. 2026

Cum Laude | Dean's List 2024 & 2025

Relevant Coursework: Software Design & Architecture, Applied Machine Learning, Artificial Intelligence, Data Structures & Algorithms

PROJECTS

Personal Portfolio Website | *React.js, Netlify*

Oct. 2026

- Built a responsive React.js portfolio with dark mode, animations, project filtering and a contact form; auto-deployed on Netlify via GitHub.

Disaster Response System | *Java, Firebase, Android Studio*

Sept. 2025

- Architected a real-time Firebase backend (Authentication, Realtime Database, Storage) for concurrent volunteer coordination, with zero downtime in load testing.
- Designed role-based access control and built Android dashboards for volunteers and coordinators, prioritizing clarity and fast decisions during time-sensitive incident reporting.

PeekEvent – Local Event Promotion App | *Android (Java), Firebase*

Aug. 2025

- Designed and built a mobile-first event discovery app: easy event creation for organizers; smart filtering, RSVP tracking and a “Tukutane Zone” for ride-share coordination for attendees.
- Streamlined the browse-to-RSVP flow, reducing the steps needed to confirm attendance; powered by Firebase Authentication and Realtime Database.

Course Advising Expert System | *Python, Flask, REST API*

Apr. 2025

- Built a Flask web app recommending courses via two cross-checked engines (rule-based and decision tree) using completed courses, interests and GPA; added live REST-powered course popovers so students explore results without leaving the page.

USIU Lost & Found Web App | *Node.js, MySQL, JavaScript*

Mar. 2025

- Built and deployed a full-stack app with secure authentication and input validation; designed a search and tagging system that improved item findability.

LEADERSHIP & ACTIVITIES

Meta Mentors Program | *Mentee, Nairobi*

May 2026 – Present

- Selected for one-on-one mentorship with a Meta employee on career strategy, professional readiness and international graduate opportunities.

IEEE IES East Africa Industrial Innovation Summit | *Student Ambassador*

Apr. 2026 – May 2026

- Promoted the summit on social media and in person, driving awareness within the university community and beyond.

AI Hackathon & Academic Trip Committee | *Member*

Oct. 2025 – Sept. 2026

- Supported planning, coordination and on-site execution of AI hackathons and academic trips.

USIU-A Student Ambassador | *Coordinator*

Sept. 2025 – Jan. 2026

- Volunteered leadership and service during school engagements.

ADDITIONAL INFORMATION

Languages: Swahili (fluent), English (fluent), Somali (fluent), Arabic (conversational)

Certification: Introduction to Cybersecurity (Apr. 2024)

Soft Skills: Communication, leadership, teamwork, problem solving, interpersonal skills
